

Apps that Support People with Autism

This research sheet is intended to give you a better idea of what it can be like living on the Autism Spectrum. First research common characteristics of those on the Autism Spectrum and then research 5 apps that support people with autism, recording the information below.

Common Characteristics of Autism

- 1.
- 2.
- 3.
- 4.
- 5.

5 Apps that Support people on the Autism Spectrum and those who Support them.

1. Name of App:

Features of the App:

How is this app supportive?

2. Name of App:

Features of the App:

How is this app supportive?

3. Name of App:

Features of the App:

How is this app supportive?

4. Name of App:

Features of the App:

How is this app supportive?

5. Name of App:

Features of the App:

How is this app supportive?

Student Name: _____

10 Most Fascinating Savants in the World

A **savant** is a person with autism who is exceptionally gifted in a specialized field. That field may, for example, be mathematics. The autistic savant may be able to do rapid, complex mental calculations. Or the field may be music. The autistic savant may be able to perform a entire piece of music after hearing it only once.

1. Please google: 10 most fascinating savants in the world.
2. Read through the biographies of each savant, or skim until you find one that stands out to you, watch the videos and answer the following questions. If you want, you can do more research on the person you chose to help you.

a) Name of Savant:

b) Where are they from?

c) Why did you chose her/him?

d) What is their gift?

e) When was their gift first noticed/developed?

f) List 3 interesting facts about them.
